Hydradermie Lift Treatments

This specialised anti-ageing treatment gives immediate and long-lasting visible results that improve the skin's appearance. Designed for skin that shows a loss of elasticity, it treats both the skin and delicate facial muscles for an immediate 'lift' and overall boost in radiance. Hydradermie Lift uses lymph drainage and a safe effective microcurrent to eliminate toxins, improve skin tone and work on the underlying muscle structure to 'lift' and firm the face, eye and neck area.

Hydradermie Lift is suitable for all skin types (30+).

Hydradermie Lift Express
