Hydradermie² Lift Treatments

Hydradermie² Lift

The 'Immediate Lift' Treatment

Hydradermie² Lift brings revolutionary youthfulness and renewed tone by stimulating the facial muscles and providing a massage that lifts the facial features. In the same way that body muscles are "sculpted" at a gym, this treatment adds spectacular "lift effect" to your face after just a few sessions . . . without injections! In addition to treating and toning the skin, Hydradermie² Lift smooths facial features deep down through muscular exercise. As muscles are toned, they take on new vitality and skin becomes amazingly smoother. From the very first session, your face will look younger.

From the end of the very first session, small wrinkles are erased, crow's feet are smoothed and eyes look younger.

Beauté Neuve

Double Peeling Facial

The “peeling” treatment removes dull skin cells, letting the glow of new cells shine through. The fruit acids in Peel’In gel penetrates between dead cells to break their intracellular links, after which Peel’Out mousse will gently remove them. At the end of the treatment, Clarimasque with pure Vitamin C regenerates the elastic fibres, enhancing a natural glow and lightening the skin. One treatment will restore a radiant complexion, while a course of three will reduce pigmentation marks on the skin, eliminating excess dead cells and allowing the skin to breathe again. Cellular renewal is accelerated, revealing a more youthful and radiant complexion.

It redefines the skin and tightens the features. The Liftosome treatment recreates the youthfulness and firmness of your face by diminishing signs of ageing.
